

Ladybirds Curriculum Newsletter – Spring 2

As Readers we will be learning the story of Kassim and his first meeting of the dragon by reading and learning his recount of the events he experienced.

As Mathematicians we will be spending time learning how to multiply and divide fractions. We will explore shape including area, perimeter and volume. We will investigate decimals and how to add, subtract and multiply them efficiently.

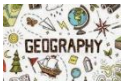

As Writers we will be undertaking some short burst writing to explore the appropriate use of a formal and informal tone, fronted adverbials and relative clauses. We will continue to focus on the presentation of our work and the use of our handwriting to improve this.

As Scientists we will explore and investigate the circulatory system. We will learn about the heart, blood and how blood flows through the heart.

As Historians we will learn about the Aztecs. We will learn where they settled, how they built their communities and infrastructure.

As Geographers we will complete our learning of North and South America, investigating contours within maps and what this mean in relation to landscape.

As athletes we will explore gymnastics. This will support us in balance, co-ordination and awareness of our own and other's space.

As Linguists we will be learning French and exploring food, their costs and how we might go shopping.

As Theologians we will be further exploring Christianity and how relevant the religion might be 2000 years into the future.

In **PSHE** we will be further exploring the zones of regulation and what tools we can access independently to support managing our emotions.

As engineers we will test and understand frame structures. We will observe and test how a tetrahedral structure can add strength and stability.

This overview is intended to give you a flavour of what we will be learning this half term. If you have any questions, please do not hesitate to ask.
